

SiteToolSet.com Launches All American Fence ([www.allamericanfencecorp.com](http://www.allamericanfencecorp.com))

Dallas, Texas – October 31<sup>st</sup>, 2009

SiteToolSet.com is proud to announce the launch the new web site for All American Fence - [www.allamericanfencecorp.com](http://www.allamericanfencecorp.com). All American Fence needed a new site to represent their services. Their goal was to highlight their excellent work and provide for each quotes and contact by potential clients. This site is built utilizing DotNetNuke.

Key tasks for the project included:

1. Custom Flash for the home page
2. Custom design and DotNetNuke skin
3. Customized testimonials module
4. Implementation of the Ultra Media Gallery
5. Implementation of our Forms Engine module
6. Hosting setup and configuration
7. Content build out

SiteToolSet.com is focused on building powerful and effective web solutions based on DotNetNuke, Joomla, ASPDotNetStoreFront, VirtueMart and other tools. Combining our strong library of skins and modules along with our talented developers, we create effective solutions for our clients.

Visit us on [www.sitetoolset.com](http://www.sitetoolset.com) to learn more about our services and software.
